

VENTS VIF Series

ESC CODE:

- **VIF100** - 100mm
- **VIF125** - 125mm

Axial inline fans for exhaust ventilation with the capacity up to 365 m³/h. This fan is also available in two packs, refer to page 29 and page 31.

Applications

- Continuous or periodic exhaust ventilation of bathrooms, showers, kitchens and other utility spaces.
- Exhaust or supply ventilation depending on the fan mounting type in the system.
- Designed for PVC ducting systems of flexible ducts.

ESC CODE:

- **VBIF150** - 150mm

CE  IPX4

- Low to medium air flow motion for short distances at low air resistance.
- Compatible with 100 and 125 air ducts. Vents fans covered with 5 year warranty.

Design

- The casing and the impeller are made of high quality durable ABS plastic, UV resistant.
- The intellectual impeller design makes the fan efficiency high and the service life long.
- Protection rating IP34.

Motor

- Reliable and low-watt electric motor.
- Designed for continuous operation and requires no maintenance.
- Equipped with overheating protection.

Modifications and Options

VKO1k - Fan with a fixing bracket for flat surface mounting.

VKO1 L - The motor is equipped with ball bearings for long service life (appr. 40 thousand hours) and fan mounting at any angle. The bearings are maintenance-free and contain enough grease for the entire operating period.

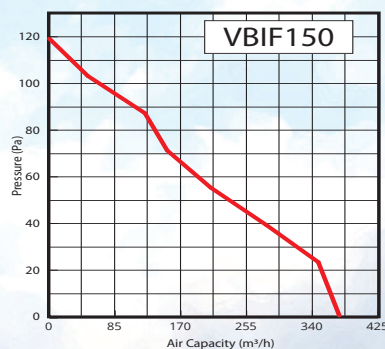

VKO1 Turbo - High-powered motor.

Control Manual

- The fan is controlled by a room light switch. It is not included in the delivery package.
- Speed control is possible through a thyristor speed controller. Several fans may be connected to the same regulator unit.

Mounting Features

- The fan is mounted into a matching duct size. Fastening with clamps in case of flexible duct connection.
- The mounting bracket enables fan installation on both horizontal and vertical flat surfaces.
- Two fans can be installed in series for higher performance.
